## *The Stroud Valley's* **DECORATIVE TRAIL**

Eight leading interiors companies in Stroud Valley have come together to produce a 'decorative trail' brochure featuring a collection of practical workshops and showrooms that offer everything anyone could want for the home - from fabric and wallpaper to flooring, paints, bathrooms, kitchen designers, curtains and soft furnishings as well as furniture and home accessories.

"The trail is designed to attract people who are interested in interiors in every shape and form to this three mile triangle for a great day out," says Stephen Lewis, managing director of fabric and wallpaper company Lewis & Wood whose brainchild the idea was. The brochure, which features a specially commissioned map by a local artist, has details of all eight companies, including recommendations for a good Cotswold lunch.
